## How to cite this article:

Lowery RP, Wilson JM, Barninger A, et al.  
Corrigendum: The effects of soluble corn fibre and isomaltooligosaccharides on blood glucose, insulin, digestion and fermentation in healthy young males and females. J. insulin resist. 2018;3(1), a35. <https://doi.org/10.4102/jir.v3i1.35>

In the title of this article published earlier, the spelling of 'isomaltooligosaccharides' was unintentionally misprinted as 'isomaltooligosacharides'. The authors sincerely regret this error. The title should be corrected as follows: The effects of soluble corn fibre and isomaltooligosaccharides on blood glucose, insulin, digestion and fermentation in healthy young males and females.
